Appendix A

Applicant and Agency 2007 System Implementation Instructions:

Agency Access

The following step(s) are required for Agencies to access the Grants.gov 2007 system:

- If using the Grants.gov Agency Client Reference Implementation, locate the **application.properties** file and set the '**gov.grants.agency.endpoint**' property to the following value:

<https://at07web.grants.gov:446/agency-s2s-server/services/AgencyIntegrationSoapPort>

NOTE: If not using the reference implementation, update the appropriate property with the given value.

- Be sure certificate is still valid. If a new certificate has to be created, be sure to send to Grants.gov so that it may be added to the server's trust-store.

N.B if the cert is Active in ATWEB then it should work on ATWEB 2007 system and Firewall port 446 should be open to address the new URL <http://at07web.grants.gov>.

Applicant Access

The following step(s) are required for Applicants to access the Grants.gov 2007 application:

- If using the Grants.gov Applicant Client Reference Implementation, locate the **soap_server.properties** file and set the '**SOAP_HOST**' property to the following value as shown:

SOAP_HOST=<https://at07web.grants.gov:446/app-s2s-server/services/>

NOTE: If not using the reference implementation, update the appropriate property with the given value.
