• Input Parameters
  – Add Opportunity Relationship(s)
    • Opportunity ID 1 *
    • Opportunity ID 2 *
    • Relationship Comments
  – Modify Opportunity Relationship(s)
    • Opportunity ID 1 *
    • Opportunity ID 2 *
    • Relationship Comments
  – Remove Opportunity Relationship(s)
    • Opportunity ID 1 *
    • Opportunity ID 2 *

• Return Values
  – Completion Status (Success, Partial, Fail)
  – Error Details
  – Add Opportunity Relationship Result(s)
    • Success (True, False)
    • Opportunity ID 1
    • Opportunity ID 2
    • Error Details
  – Modify Opportunity Relationship Result(s)
    • Success (True, False)
    • Opportunity ID 1
    • Opportunity ID 2
    • Error Details
  – Remove Opportunity Relationship Result(s)
    • Success (True, False)
    • Opportunity ID 1
    • Opportunity ID 2
    • Error Details
# Manage Related Opportunities Business Rules Validation

<table>
<thead>
<tr>
<th>Validation Rule</th>
<th>Error Code / Message</th>
<th>Field(s)</th>
</tr>
</thead>
<tbody>
<tr>
<td>At least one action must be specified</td>
<td>VAL-1001 - No input action specified</td>
<td>---</td>
</tr>
</tbody>
</table>
| Certificate must have at least one of the following roles:  
  • Manage Forecasts  
  • Manage Synopses  
  • Manage Packages | SEC-1001 – Certificate has none of the following roles: Manage Forecasts, Manage Synopses, Manage Packages | --- |
| To add an Opportunity Relationship, both Opportunity IDs must be non-deleted, non-draft, and belong to Agency associated with the certificate (or any of its Sub-Agencies if certificate has Manage Agencies role). Note: Opportunities in Draft status are not currently retrievable by S2S | SEC-1008 – Opportunity(ies) {Opportunity ID(s)} do not belong to certificate Agency (Access to all specified Opportunities is required) | Opportunity ID 1, Opportunity ID 2 |
| To modify/remove an Opportunity Relationship, at least one of the Opportunity IDs must belong to Agency associated with the certificate (or any of its Sub-Agencies if certificate has Manage Agencies role) | SEC-1009 – Opportunity(ies) do not belong to certificate Agency (Access to at least one of the specified Opportunities is required) | Opportunity ID 1, Opportunity ID 2 |
| Cannot add an Opportunity relationship that already exists | VAL-1601 – Opportunity relation already exists | Opportunity ID 1, Opportunity ID 2 |
| Cannot modify/remove an Opportunity relationship that does not exist, and both opportunities must be non-draft since S2S cannot currently retrieve draft opportunities | VAL-1602 – Opportunity relation not found | Opportunity ID 1, Opportunity ID 2 |
| Cannot relate Opportunity to itself | VAL-1603 – Cannot relate Opportunity to itself | Opportunity ID 1, Opportunity ID 2 |
GET RELATED OPPORTUNITIES
Get Related Opportunities
Grantor Web Service

For the Opportunity specified:
• Return related Opportunities and relationship comments, excluding draft Opportunities since these cannot currently be retrieved with S2S
• Note: in the return values, Opportunity ID 1 will always match the Opportunity ID in the input parameters

• Input Parameters
  – Opportunity ID

• Return Values
  – Success (True, False)
  – Opportunity Relationship(s)
    • Opportunity ID 1
    • Opportunity ID 2
    • Relationship Comments
  – Error Details
## Get Related Opportunities

### Business Rules Validation

<table>
<thead>
<tr>
<th>Validation Rule</th>
<th>Error Code / Message</th>

</tbody>
</table>
Get Submission List
Grantor Web Service

• Based on Get Application List Expanded
  – Returns an additional optional value for Previous Grant Tracking Number
DELETE ADOBE SYNOPSIS
DELETE ADOBE OPPORTUNITY
UPDATE ADOBE OPPORTUNITY

• If Agency Code not provided and specified User ID has multiple Grantor profiles, determine if Funding Opportunity Number is unique
  – If unique across Grants.gov (and found within the certificate access), no longer return an error and continue with web service processing
  – Otherwise, existing error messages apply
    • If the FON is not unique across Grants.gov, current error message related to multiple profiles will be returned
    • If FON is not found within the certificate access, current error message related to FON not found will be returned
MANAGE RELATED DOCUMENT FILES/LINKS
Manage Related Document Files/Links

• Add 1 additional optional input parameter
  – Modification Comments

• If Modification Comments are provided, web service will store this data as it does on the user interface
  – Note: if related documents files/links modification comments are specified, Opportunity will be included in nightly email notification. Also, modification comments will be displayed on the Related Documents tab on View Grant Opportunity.
Manage Related Document Files
Grantor Web Service

Note: Modification Comments added after Opportunity ID as an optional input parameter

• **Input Parameters**
  – Opportunity ID *
  – **Modification Comments**
  – Add File(s)
    • File Name *
    • File Description *
    • File (Streaming Data Handler) *
    • Folder ID *
  – Replace File(s)
    • File ID *
    • Any of following:
      – Revised File Description
      – None or both:
        » Revised File Name
        » Revised File (Streaming Data Handler)
  – Remove File(s)
    • File ID *

• **Return Values**
  – Completion Status (Success, Partial, Fail)
  – Error Details
  – Add File Result(s)
    • Success (True, False)
    • Folder ID
    • File Details (for Success=False, only return File Name and File Description)
    • Error Details
  – Replace File Result(s)
    • Success (True, False)
    • File Details (for Success=False, only return File ID)
    • Error Details
  – Remove File Result(s)
    • Success (True, False)
    • File ID
    • Error Details
Manage Related Document Links
Grantor Web Service

Note: Modification Comments added after Opportunity ID as an optional input parameter

• Input Parameters
  – Opportunity ID *
  – Modification Comments
  – Create Link(s)
    • Link URL *
    • Link Description *
  – Update Link(s)
    • Link ID *
    • Either or both:
      – Revised Link URL
      – Revised Link Description
  – Delete Link(s)
    • Link ID *

• Return Values
  – Completion Status (Success, Partial, Fail)
  – Error Details
  – Create Link Result(s)
    • Success (True, False)
    • Link Details (for Success=False, only return Link URL and Link Description)
    • Error Details
  – Update Link Result(s)
    • Success (True, False)
    • Link Details (for Success=False, only return Link ID)
    • Error Details
  – Delete Link Result(s)
    • Success (True, False)
    • Link ID
    • Error Details
Update Error Message Text

• Previously error message text referenced Draft mode when a Forecast/Synopsis had a future Post Date. With R16.3 implementing an actual Draft status, previous message texts will be clarified.

• Create/Update Opportunity Forecast
  – VAL-1308 – Forecast Archive Date cannot be specified while Synopsis Post Date is in the future
  – VAL-1315 – Forecast Post Date can only be modified when it is in the future
